Numb. 835

The Daily Gazetteer.

Wednesday, March 8. 1738. Nº. 843.

Yesterday arrived the Mail due from Holland.

THE Letters from Venice which are dated the 17th ult. O. S. give the following Particulars concerning the Deposing of the late Grand Vizier Abdulla Basha, from that important Office.

'On the 28th of December, the very Day that he 'arrived from the Army, 'as he was going to the Seraglio to give his Highness 'an Account of the State of the Forces, he was 'stopped at the second Gate by one of the Ministers 'of the Seraglio, who communicated the Order to 'him, by which the Grand Seignior removed him 'from his Employment, and gave him the Govern-'ment of Salonica. During this, the Aga of the 'Janissaries sent a Detachment of those Troops to 'the Grand Vizier's House to seize his Treasure, 'which we are assur'd amounts to 12,000 Purses, 'making in the whole 6 Millions of Crowns; which 'Money was immediately carry'd to the Seraglio to 'be employ'd towards the Expences of the War. 'Then the Caimacan or Governor of Constantinople 'was, by the Intrigues of the Kislar Aga of the 'Eunuchs, declar'd Grand Vizier in his Place. This 'was a Choice not very much applauded, not only 'because of his little Experience in the Art of War, 'but because he is reckon'd to be very cruel and 'bloody-minded. The new Prime Minister was 'complimented thereupon not many Days after, by 'the Foreign Ambassadors and other Ministers; but 'he received them very coolly, and even with 'Disdain, there being but one among the several 'Ambassadors of the Christian Powers, for whom he 'declares any Esteem. The Venetian Letter adds, 'that the Master of a Ship arrived from Castelnuovo 'reports, that as he came away, he was informed 'that the Deposed Grand Vizier being repaired to 'his Government of Salonica, was strangled there 'soon after by the Grand Seignior's Order.

Letters of the 5th of January O. S. directly from Constantinople say, that all Affairs there are in great Confusion; that the People are absolutely for continuing the War against the Christians; and that they are therein supported by the Mufti, and the Men of the Law; that 'twas this Faction which demanded the Deposal of the last Grand Vizier, because of his want of Spirit in the present Juncture; and that the Caimacan his Successor, was only put in his Place by reason of his known Hatred to the Christians; that however he was not yet well fixed in that Post, and that the Murmurings of the People were so universal, that 'twas apprehended the Consequences might affect the Grand Seignior himself.

The Letters add, that of the 1500 Prisoners that were lately taken in the Engagement near Timock, with the Body under the Count de Kevenhuller, there were above 800 Women that served the Camp as Sutlers, and that the Booty which the Turks took in that Action was very Considerable, insomuch that some of the Soldiers had 4 Tents to their own Share.

Letters of the 18th ult. O. S. from Vienna say, that the Day before being appointed for the first Session of the Committee of Enquiry into the Affair of the Count de Seckendorff, they went to his House at 9 o'Clock in the Morning, when the Count, upon Notice given him of their being met, came down from his Apartment with his Sword by his Side, and accompany'd by the Officer who is his Guard, and by his Secretary. The Count sitting at the Table where the Commissioners were placed, they began their Interrogatories, his Answers to which were committed by the Secretary at War to Writing. The Session held till Noon, and then the Count went up again to his Apartment. Next Day the Committee made a Report to the Emperor of the Answers given by the Count, which are not as yet made Publick; but we hear that his Imperial Majesty seem'd very well satisfied with them. 'Tis supposed, that after the Commissioners have had 3 or 4 Meetings more, we shall know what will be the Issue of the Affair. The President of the Commission of Inquiry, is the Velt Marshal the Count de Harrach, who together with the Counts de Khevenhuller and Wallis, had a previous Conference at the House of the Count de Konigsegg, President of the Council of War.

Letters from Warsaw of the 14th ult. O. S. say, that the Palatine of Kiow, the Great General of the Crown Army, has received Advice that the Crim and Badziack Tartars, to the Number of near 150,000, commanded in Chief by the old Kan of the Tartars, who has been recalled from his Banishment in the Isle of Rhodes, and has under him the Kan of the Badziack, the Sultan Galga, the Kan Fetigerey, and all the Princes of the Crim Tartary, are actually on the March to invade the Ukrain. The principal View of this Expedition seems to be to favour the Siege of Oczakow, which the Turks are going to renew, and if possible, to ravage a Part of the Ukraine. The Tartars carry with them a great Train of Field Artillery; and 'tis said they will be seconded, upon Occasion, by the Cossacks, who are tributary to the Porte.

They write from Petersburg, by Letters dated the 24th ult. O. S. from Hamburgh, that the Lord Marshal, a Scotsman, and Brother to General Keith, who is employ'd in the Service of the Czarina, is shortly expected there to enter into the same Service, in Quality of a Major General. This is the Nobleman that was engaged in the Rebellion in Scotland for the Pretender, and fled to Spain, where he was made a General Officer. He went afterwards to Italy, and has been a long time at Rome.

The Letters from Dresden, which are of the 21st ult. O. S. give a particular Account of the Reception which the Count de Fuenclara, the Spanish Ambassador, had there when he came to demand the Princess Royal of Poland in Marriage with the King Don Carlos. He was met on the Frontiers of the Electorate of Saxony by M. de Bruhl, Master of the Horse to the King of Poland, who accompanied him, and defray'd his Expences to Dresden. He entr'd that City with several Coaches and 7 Baggage Waggons, preceded by some Postillions sounding the Horn. On the 17th of February, when he went to have his Audiences of their Polish Majesties and the Royal Family, he was conducted to Court in one of the finest of the King's Coaches drawn by 6 Horses, and preceded by 2 of the Ambassador's Running Footmen, and 4 of his Lackeys, dress'd in green Liveries with Gold Lace. The Domesticks of the Court that accompanied the Coach, were a Trumpeter, 2 Lackeys, 2 Running Footmen, and 2 Heydukes. These first Audiences only pass'd in Compliments. The Count de Fuenclara was so struck with the grand and majestick Air of the Princess Royal, that he said to her, *That Fortune would have been unjust, if it had not design'd her for a Throne.*

The same Advices confirm, that the King of Poland has permitted the Count Sulkowsky to retire to his Estate in that Country.

They write from Berlin, that a Sect of Piecists is lately form'd there, which makes a very great Progress, and is protected by a Silesian Count, at whose House the Sectaries meet four times a Week. 'Tis said their Opinions savor of Origenism, and that they make the Essentials of Religions to consist in Contemplation and Mystick Theology.

The Letters from Luneville say, the Free Masons there gave a fine Entertainment on account of the Carnival: It began at 8 in the Evening with a Concert of Vocal and Instrumental Musick; after which there was a grand Supper, at a Table spread for 50 Guests, who, as well the Ladies as the Gentlemen, were masqued. The Free Masons were dressed in white Taffeta; but the Court of Luneville, which conforms to the Customs of that of France, would not suffer the Free Masons to appear with their Aprons, or any Badges of their Fraternity; nor to have their usual Dessart of a Structure of Sugar, encompassed with Trowels, Compasses, and the like Instruments of Masonry. After the Supper was over, there was a magnificent Ball, at which a new Dance was exhibited, called the Free Masons Dance, which was lately executed at the Opera Theatre at Paris, by the famous Miss Salle. This Ball held till next Morning, and there was Play all the Time in two Rooms contiguous to that where they dance'd.

The last Letters from Madrid say, that the Cadiz Merchants have made great Complaints to the Court of Spain, of the disadvantagious Fairs they have lately had in America, owing to the Male Administration of the Governors in that Country: That the cold and dry Weather in Spain, has been productive of many Distempers, not only at Madrid, but throughout New Castille; and that they have Advice, that the Pestilence continues to make great Havock in Mexico, and rages to such a Degree in the Colonies of Puebla and Jalappa, that about 250,000 Persons have already died of it, and among the rest the Archbishop of Puebla.

We have Letters by the Dutch Post from Paris, dated last Friday se'nnight, which say, that according to an Account that Morning from Versailles, Cardinal Fleury, who was thought to be on the mending Hand, was relapsed the Night before, and was in as dangerous a Condition as ever. We shall know more perhaps to-day, when a Mail may be expected from France. We hear that at the last Visit which was paid him by the King, his Eminency gave his Majesty a Political Sort of a Testament, containing certain Reflections made by his Eminency during the Course of his Administration, upon several Articles relating to the Welfare of the Spanish Monarchy.

THOMAS CHARLTON.

WHereas the Venetian Galley of Amsterdam, ISAAC ROULOTT Commander, bound for the Mediterraneam, had the Misfortune to be lost the 22d of December last on the Goodwin Sands, her Cargo consisting chiefly of Bail Goods; the said Commander assoon as he came on Shore, applied himself to Mr. George Rainier of Ramsgate, who readily granted him his Assistance; notwithstanding which, several of the Goods were stolen and concealed by some of the Salvers at Ramsgate aforesaid; on which Complaint was made to the Judge of the Admiralty Court of Dover, who immediately gave Orders to issue out Warrants for the apprehending of those People; two of which were apprehended, and gave Bail for their Appearance at the aforesaid Court: The next Morning one of those Fellows knocked down the said Agent Rainier, and swore he would murder him, and broke a large Stick about his Head, before several substantial Witnesses, who have sworn to the Truth hereof: Notwithstanding which, several Persons countenance and encourage the Fellows in the above Actions; wherefore the Proprietors of the said Ship and Cargo do hereby give Notice, that whoever molests the said Agent Mr. Rainier, or Countenances any who do, may depend on a rigorous Prosecution as the Law directs.

Concerning Gleets *and* Seminal Weaknesses *of all Kinds.*

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutio sui, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, intirely the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetis, or Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Good, after having for many Years been experienc'd never once to fail perfectly curing the most Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, which it almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY, is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weakness and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an immense Degree, insomuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigu'd with Gleets or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surprised at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleets and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and this, All who ever took it for any of the above-mention'd Purposes, have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy, one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radford's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with, suceeeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary.

An Infallible REMEDY

For BROKEN-WINDED HORSES,

WHich has been published and sold many Years before any Counterfeits in other Forms appeared; and highly commended from one Friend to another. The vast Quantities that have been sold do also verify its Efficacy and Virtues, for it most perfectly cures them, after all others Means have been Ineffectual, to a Wonder, in a small time, without Confinement; by attenuating and opening the Globules of the Lungs dried up, and all the Passages obstructed by Humours dripping thereon, occasion'd by hard Riding, Colds, &c. it causes presently a free Perspiration, renewing its Force, Vigour and Length again, as well as ever.

It immediately cures those Horses only a little touch'd in their Wind, as also all continued Coughs, Colds, Wheesing, &c. being excellent in preventing many other Distempers incident unto them, by maintaining, preserving, and continuing a good Breath.

And in a word, by this very Medicine alone, many Horses have been made so perfectly sound, that they have been sold and valued from 10 to 30 or 40 Pounds, which by being Broken-winded, could not before be sold for 3 or 4 Pounds.

It is sold at Mr. Sandwell's Toy-Shop at the Griffin, the Corner of Buckler's-Bury in the Poultry, at 4 s. 6 d. the Quart Bottle, with Directions for taking it; and no where else in England.
